

inside

AIR CONDITIONERS

No outside view
of outside unit

INSIDE is a real air conditioner without an outdoor unit, **ideal for normal as well as those installations where it is impossible to fit an outside unit.** INSIDE saves the outside beauty of the building.

- Self function
- Air cleaning
- 24h on / off timer
- Heat pump
- Infrared remote control
- Night time program
- Cooling
- Automatic 3 speed fan
- Dehumidify
- Right heating
- Restart
- Automatic louver

Model	MRW 12HL	INSIDE
Heating capacity	W	2890
Heating capacity	BTU/h	9855
Cooling capacity	W	2650
Cooling capacity	BTU/h	9037
Power input heating	W	950
Max power input heating	W	1074
Power input cooling	W	1050
Max power input cooling	W	1187
Power supply	V-Hz	230-50
Phase	Ph	1
Dehumidifying	L/h	0,7
Air circulation	M ³ /h	380
Noise level*	dB(A)	39-40-42
Width	mm	830
Height	mm	395
Depth	mm	184+180
Weight	kg	44
Refrigerant		R410a
Compressor		Rotary
COP		3,04
Heating performance class		A
EER		2,52
Energy efficiency class		B
Annual energy consumption	kWh	525

Performance calculated in built-in installation mode "to the edge of the wall", fan motors at max speed, without grilles, full optional, high efficiency kit. All data and pictures are approximate and temporary and can change without prior notice.

smart and refined

INSIDE: a real air conditioner without outdoor unit. A unique and smart "Made in Italy" design and no outdoor unit: the ideal solution to solve all problems.

INSIDE installation is fast and easy. A simple support helps the installation on perimeter walls. You just need to switch on the power supply to get an ideal climate in every season.

easy to be used

Infra-red remote control, ultra-flat design, big LCD display.

INSIDE: a single unit with all the functions of an air conditioner: it cools, heats, dehumidifies, destratifies and cleans the air with a double system of carbon filters (optional) useful also against foul smells. All functions can easily be settled with a simple multi-function remote controller with LCD display and timer.

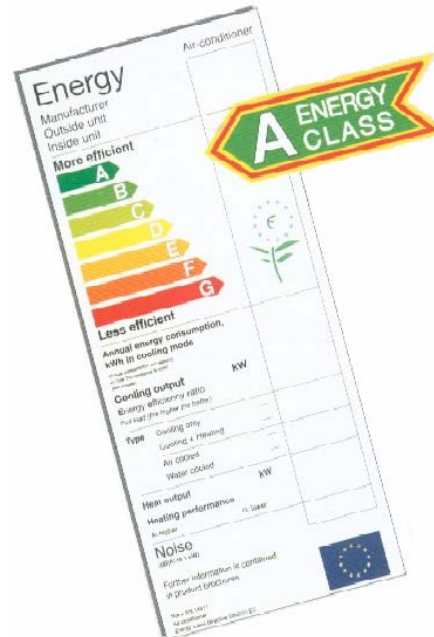

ecological refrigerant

INSIDE is patented and uses only high technology components, ecological materials and refrigerant.

IDEAL FOR:
Conservatories
Homes
Hotels
Listed Buildings
Lofts
Offices
Shops
Waiting Rooms

Should you require **HEATING** or **COOLING** for a room the INSIDE unit is easy to fit and economical to run.

Each unit will cool an normal empty space approximately 6m x 6m x 3m that has no abnormal heat gain.

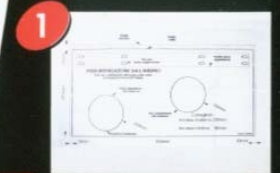

Cooling performance is for guidance only and a professional site survey should be carried out to determine heat gain for cooling

Fast and easy

installation

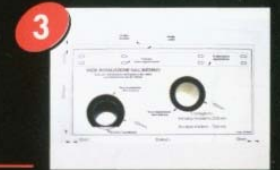

INSIDE installation is fast and easy: a simple diagram included in packaging helps the installation on perimeter walls.

After setting the diagram, **make two holes** with an auger machine.

Install the air conditioner support and insert the sound absorbing tubes. **Install INSIDE and connect it to the power supply.**

From the outside: only **two grills**.

Inside and it is... ready!
